Integration of the Garden Level Rotunda Permanent Exhibit Design with the Capitol Building Design

The meeting opened with a presentation from Rusty Katsuki, Catapult3, showing the revised design from the garden level rotunda permanent exhibit design. The commissioners discussed the design concepts presented relative to the audience and the architectural features of the building.

Considerations:

- Space available
- Match with the look of the rest of the Capitol
- Preserve the features of the building
- Ceiling height
- Electrical availability: exhibit lighting and interactivity
- Traffic around the rotunda columns
- Configuration of the lighting

MOTION: Commissioner Gallimore moved to authorize Catapult3 to move forward to develop the historic millwork design scheme and to distribute the design to the Design and Construction Committee and the Arts, History and Culture Committee for approval. The second was by Commissioner Youtz; the motion passed unanimously.

Adjournment

Commissioner Erstad adjourned the meeting at 11:00 a.m.
